

The background is a soft, watercolor-style floral pattern. It features a mix of pink and orange hues with delicate, painterly textures. Various types of flowers are scattered throughout, including large, multi-petaled roses in shades of orange and pink, and smaller, daisy-like flowers with prominent brown centers. Green leaves and stems are interspersed among the blooms, adding a natural feel. The overall composition is balanced and aesthetically pleasing, serving as a decorative backdrop for the text.

# PROBLEM STATEMENT

Many students and beginners in web development struggle to showcase their skills and projects effectively. Traditional resumes are limited in demonstrating creativity and technical knowledge. A digital portfolio website solves this problem by providing an interactive and professional platform to highlight skills, projects, and achievements.

# Project Overview

The project is a personal portfolio website designed to present information about the developer (Pavithra), including her skills, projects, and contact details. It uses HTML, CSS, and JavaScript to create a clean, modern, and responsive design.

# End Users

Students → To present their skills and projects.

Recruiters/Companies → To evaluate candidates' technical skills.

General Visitors → To know about the developer's skills and achievements.

# Tools and Technology

HTML5 → For structure

CSS3 → For styling and layout

JavaScript → For interactivity (e.g., alert message)

Responsive Design → Works on mobile, tablet, and desktop

CodePen.io → Development & testing platform

# Portfolio Design and layout

Navigation Bar → About, Skills, Projects, Contact

Hero Section → "Hello, I'm Pavithra – A passionate Web Developer 🚀"

About Me Section → Short introduction

Skills Section → HTML, CSS, JavaScript, Responsive Web Design, Python & Java Basics

Projects Section → Showcasing portfolio project(s)

Contact Section → For connecting with visitors

# Features and functionality

- ✓ Responsive design (works on all devices)
- ✓ Attractive UI with clean and modern look
- ✓ Skills and projects showcased clearly
- ✓ JavaScript alert function – greeting visitors
- ✓ Easy navigation through sections

# Result and Screenshots

Successfully created a working portfolio website.

Visitors are greeted with a welcome message.

Sections are well-structured and easy to navigate.  
(Screenshots like the one you attached can be added  
here in the PPT/report.)

# Conclusion

The Digital Portfolio Website helps in presenting skills, projects, and achievements in a professional manner. It acts as a digital resume, increasing opportunities for academic and career growth.

**Thank You**
